**FOR IMMEDIATE RELEASE**

**KONICA MINOLTA INTRODUCES 3D PRINTERS AS AN ADDITION TO IT'S  
RANGE OF DIGITAL MANUFACTURING SOLUTIONS**

- *The printer will be available in Singapore, Malaysia and then expanded into ASEAN later*
- *Konica Minolta's 3D Printers is targeted at Manufacturing Industry, Healthcare and Education.*

**Singapore, 28<sup>th</sup> May 2019** – Konica Minolta Business Solutions Asia (BSA), an integral value provider, today announced the introduction of 3D printers. It will be available in Singapore, Malaysia initially, and expanded to rest of ASEAN later.

“As part of Konica Minolta’s Industry 4.0 Digital Manufacturing initiative, additive manufacturing will be part of our Digital Manufacturing portfolio, specifically prototyping for injection molding operations. Our 3D printers will allow customer to do rapid prototyping, accessibility, and intricate designs of any shape and sizes. The introduction of 3D printers follows our earlier introduction of autonomous robots and solutions for Digital Manufacturing. Konica Minolta supports Singapore’s move towards Industrial 4.0 and becoming a smart nation by offering solutions that promote digitalization and automation.”  
said Jonathan Yeo, Director & General Manager, Regional Headquarters of Konica Minolta Business Solutions Asia Pte Ltd.

KONICA MINOLTA

At the size of 35cm × 33cm × 52 cm, and weighing at 13kg, it allows customers to produce in-house 3D parts and prototypes in-house, reducing the time and cost associated with outsourcing. The printer can also print up to 10 different resin materials including elastic resin for soft flexible parts, rigid resin for stiffness and precision, and high temp resin for high thermal stability.

Jonathan added: “As a digital global company, Konica Minolta promotes the shift to a more efficient digitised workplace as we continue to add value for our customers.”
